Another financial mapping will be completed and will look at possibilities for blending and braiding funding to support elimination of financial & service silos. • CQI –has the opportunity to direct data driven conversations and decisions CQI committee will not only collect data but analyze and suggest ways for improvement as well. SB200 also has requirements for reporting and supports comprehensive submission of data. What do we do with the data once we get it? What are we looking for? It also forces us to be intentional in planning and opening opportunities to share with other committees' information about access, gaps, and resources. • Training & TA –will examine training needs, new provider needs, ability to provide and coordinate training and continue coaching and monitoring, delivering ongoing technical assistance ... • Service Array –FRYSC, Parent Leaders, Youth Leaders, Local Resource Coordinator, RIAC Chairs, etc. will be important members of this committee because they see and understand service delivery and service gaps up close. Can the average person access what they need and do they know how to get their needs met? • System Structure –will support our goals, including a thorough review of statutes; in light of the role of MCOs and new services covered in KY and the expansion of providers, etc. <p>Commissioner James: Because of changes from Medicaid and SOC changes all of our agencies have to reevaluate (together) how we use our dollars:</p>	<p>SIAC Chair Appointed Standing Committee Chairpersons; all were adopted by SIAC.</p> <p>Standing Committee Chairs are encouraged to include members who are not represented on SIAC.</p> <p>Send membership recommendations/ inquiries to: Heather.Dearing@ky.org Vestena.Robbins@ky.gov Cc: Martha.Campbell@ky.gov</p> <p>Commissioner-level SIAC meetings are scheduled in: January, April, July, October</p> <p>Standing Committees meet the other months & report progress to SIAC.</p> <p>Standing Committees hold their first meetings on 2/25/15 to discuss responsibilities and work plans.</p>

We are talking about collaboration on steroids... if one fails, we all fail and if we fail our kids and families fail.</p> <p>Information sharing between committees and between meetings will be vital. Committees will be feeders for each other to give input and suggestions so that everyone knows the direction everyone else is going in.</p>
